| Presentation | Calyx-free · no stalk |
| Product profile | Regular round tomatoes |
| Use | Fresh-cut applications |
| Acceptance & packing | Agreed per programme |

## 57-67 mm. Calyx-free.

Our fresh-cut tomato brief focuses on regular round fruit in the 57-67 mm calibre range, supplied without the green calyx and stalk.

## Discuss the details that affect processing.

Firmness, maturity, colour uniformity, cut performance and handling expectations belong in the product conversation with your technical team.

## Bring the supply plan together.

Specify the delivery destination, required period, expected volume and preferred packing. We will use those details to discuss the right sourcing programme.

## Discuss product, volume, period and destination with our team.
